

"BOSS COX" VICTIM OF GRAND JURY

Indicted With Ten Others
for Alleged Looting
of Bank

CAUSES A SENSATION

Persons Implicated are All
Men of Prominence in
Business Circles of
the Queen City.

Cincinnati, O., March 18.—Like an avenging nemesis, the strong arm of the law is reaching out for George B. Cox of Cincinnati, long the dominating Republican boss of the state, but now shorn of every vestige of the great political power he wielded for many years.

Monday morning, at Cincinnati, as a result of Attorney General Hogan's probe of the looting of the funds of the Cincinnati Trust company—a probe that met with almost unsurmountable obstacles—Cox, the president of the defunct institution, and ten other officials were indicted by the Hamilton county grand jury.

The indictments returned Monday were not made public until those mentioned were arraigned Tuesday morning.

The indicted persons have been prominent in banking and business circles in Cincinnati for many years, and the action of the grand jury has caused a sensation. Some indictments were expected, but nothing like the number that came, and their importance were anticipated. The investigation which has culminated in the indictments began last October.

The indictments are based on the fact that enormous sums of the bank's money were used in a vain endeavor to successfully operate the Ford-Johnson company, a \$3,000,000 Ohio furniture manufacturing concern, of which Cox is president and the indicted bank officials are either directors or officers.

Back of the indictments is an amazing story of high finance and reckless use of the bank's money in financing the furniture company, which suffered losses every year of its existence. The creditors of this company will receive from seven to ten per cent on the dollar.

Cox is indicted for abstraction of a \$350,000 note from the Cincinnati Trust company and also for misapplication of its funds.

STANDARD OIL SUMMONED FOR TAX DODGING

Richmond, Va., March 18.—Judge Richardson of the Hastings court, today summoned the Standard Oil company of New Jersey to court April 8, to answer for irregularities reported by a special grand jury impelled to investigate alleged "tax dodging." The grand jury found that the Standard Oil company reported property valued for assessments at \$67,500, when it is alleged it should have been valued at \$500,000.

MANY SHIPS WRECKED IN HURRICANE

Hamburg, Germany, March 18.—Eighty ships, mainly small craft, were sunk off this city early today in a southwesterly hurricane. Twelve deaths have been reported and it is thought the death list may reach 50 persons.

KING GEORGE IS ASSASSINATED AT SALONIKA TODAY

Salonika, March 18.—King George of Greece was assassinated here this afternoon.

King George, who had taken personal command of his troops during the earlier period of the war had been here since December, when the Turkish fortress was occupied by the Greeks after a short siege. The Queen of Greece also had been here and has paid great attention to the care of the sick and wounded.

King George in December had a meeting here with King Ferdinand of Bulgaria to discuss the fate of the captured Turkish territory after the war.

King George was in his 68th year and had ruled 50 years. He was a brother of the Queen Mother Alexandra of England, and a son of the late King of Denmark. He was chosen king of the Hellenes in 1863 in succession to Otto the First.

A previous attempt to assassinate him was made in 1898, but was frustrated. King George was married in October, 1867, to Princess Olga, eldest daughter of the Grand Duke Constantine of Russia, a brother of the late Emperor Alexander.

Crown Prince Constantine, who has been in command of the Greek troops throughout the hostilities, and who was at the head of the army which recently captured the Turkish fortress of Janina, with its garrison of 32,000 men, will be the successor of his father. His wife is Princess Sofia, a daughter of the German Emperor.

Since the occupation of Salonika by the Greeks there has been some friction between them and their Bulgarian allies, but it was thought that this would eventually be overcome during the negotiations for the partition of Turkish territory.

King George was often rated as an autocratic monarch but in spirit he was democratic and did much for the prosperity of Greece which advanced rapidly under his rule. He took great interest in the organization of the defensive forces of the country and with the assistance of the Crown Prince brought the army to the state of efficiency which enabled it to cover the resistance at the beginning of the war. His name was mentioned after hostilities broke out for the presidency of the permanent organization of the states of Bulgaria, Serbia, Montenegro and Greece.

When George arrived in Salonika on November 12 with Prince Constantine and Prince George, he was warmly greeted by the Greek Metropolitan and the senior officers of his army. All the houses were decorated with Greek flags and thousands of people assembled to cheer him. In an interview King George at that time said Greece after the war would have a frontier north of Salonika and Monastir and he was inclined to make Salonika a free port.

Flory for the defendant. The case involved the question whether or not wives are necessary parties in suits to partition land. The circuit court had "yes" against the practice which has prevailed in Ohio for many years. By decision of the highest court today, this decision is reversed. The Supreme

court holding that wives are not necessary parties and that no dowry interest in the undivided interests in real estate.

Mr. Hand, former superintendent of the Licking County Children's Home, died several months ago.

FULTON BILL IS BURIED

Committee Sends It to Its
Death by Vote of
8 to 5

STATE ADMINISTRATION

Requested That No General
Gerrymander be Made—
\$1,200,000 for State
Office Building is
Urged.

LEGISLATIVE PROGRAM.

Congressional gerrymander bill killed in house committee; special bill to provide for extra district.

Proposal made that \$1,200,000 be spent on new buildings to accommodate departments crowded out of capitol and annex.

Stringent measure introduced to provide for the collection of delinquent taxes and the prevention of dodging.

Bill offered providing for the rehabilitation of the tax inquisitor outlawed several years ago.

Bill presented providing for the regulation of women's dress as a preventative of immorality.

Columbus, O., March 18.—No general gerrymander of the congressional districts will be made at this session of the legislature. At the behest of the state administration, the house committee on federal relations last night buried the Fulton gerrymander bill.

By a vote of eight to five, the committee refused to report the bill to the house. The vote demonstrated that Chairman Fulton does not control the committee. Only four members supported his motion to report out the bill, and two of these were Republicans, Thatcher of Clinton, and Jenkins of Madison. The others were Berne of Williams and Welsh of Ottawa. Those who opposed making a partisan realignment of district boundaries were Mills of Cuyahoga, Black of Wyandot, Dixon of Washington, Acker of Hocking, Hoil of Auglaize, Clark of Hamilton, Kemerer of Carroll. Mr. Kemerer was the only Republican voting against the proposed Democratic gerrymander.

Discussion in committee favored making a Twenty-second district out of the territory embraced in the Twentieth and Twenty-first districts, instead of continuing to elect a congressman at large. This probably will be done by special bill.

At the last session a similar bill by Representative Fulton passed the house, but failed in the senate. None of the 21 congressional districts has been changed since 1891, except the Eleventh and Twelfth. In 1900, Fairfield county was transferred from the Twelfth to the Eleventh district.

That the state still sink \$1,200,000 in an office building for the accommodation and housing of departments which have been crowded out of the state house and annex is proposed in the bill Representative William Behne of William county introduced in the special committee, which has reported.

BILL INTRODUCED IN OHIO LEGISLATURE WOULD REGULATE FEMALE GARB

Columbus, March 18.—"Women will not properly clothe themselves unless compelled to do so," said Representative Louis H. Capelle of Cincinnati, who last evening introduced a bill in the legislature providing for the establishment of a commission to prescribe what clothes women may wear. "For several years clergymen have been calling attention to the immodest fashions and asking women for their own self respect to be more reasonable in their dress in public. The only reply of the women is to go further in immodest display," said Capelle.

"It is these women who cry out that men are animals and pursue them after they have lured them on by every cunning device. I do not mean to condemn all women but it seems to me there are enough who do not approve of the prevailing styles of dress to restrain their sisters from what has been pronounced by authorities to be the most prolific cause of immorality."

"In various parts of the country we find that a pretended effort to reduce vice not by demanding that women wear modest clothing but by compelling their employers to furnish them with clothes to compete with women who have copied the immodest fashions."

"Women should understand that to display themselves on the street before men is different from laxity in the presence of their own sex. The sooner they understand, the sooner this so-called wave of immorality will subside."

Washington, March 18.—President Wilson is in favor of a budget system for the conduct of the government finances. He made public today a letter written on January 30 from Trenton to Senator Tillman expressing the hope that a budget system might be worked out after he got to Washington.

The letter said in part: "Ever since I was a youngster I have been deeply interested in our method of financial legislation. This business of building up the expenses of the nation, piece by piece will certainly lead us to error and perhaps embarrassment."

Washington, March 18.—President Wilson and the cabinet worked two hours today over a statement defining the attitude of the United States toward the Chinese so-called Six-Power loan. A statement, it was said, would not be given out before tomorrow. The President today took under advisement the question of attending the unveiling of a memorial to the dead heroes of the battleship Maine in New York on Decoration Day.

CEMETERY EMPLOYES GET WAGE INCREASE OF 25 CENTS PER DAY

Residents in Northwestern Part of City Ask Council to
Aid in Providing Street Car Service in Hoover,
Tenth and Granville Streets—Big Grist of
Business at Meeting of Council.

Through the efforts of Service Director James McCarthy and Councilman John Dwyer, city employees in the cemetery department will get an increase of about 25 cents per day, beginning April 1. Legislation was passed by the city council at Monday night's meeting, providing for the increase, every member voting favorably when the roll was called.

This action, together with a petition bearing nearly 1500 signatures, asking for street car service in the northwestern section of the city, were the interesting features of a council meeting in which the bulk of business was large.

All member were present and the business was disposed of with a rush, though there was a delay of thirty minutes before the meeting was called to order.

City Auditor William Wulfoop submitted his annual report, a printed pamphlet, showing the business transactions in his office in the year 1912.

Service Director McCarthy sent to council a resolution adopted by himself, increasing the pay of the cemetery employees. The foreman was granted an increase from 20 to 25 cents per hour, the regular laborers increased to 15 1/3 cents per hour. Upon Councilman Dwyer's motion, council approved the action of the service director and the increase will become effective April 1. The increase was provided for in the January appropriation ordinance.

Council Clerk Franklin reported that notices had been served on property owners on streets where improvements are proposed. Edward Wilson and nine property owners on Baltimore street asked for sidewalks from Allen to Cedar. EB Hull and 35 property owners in Linden avenue asked council to pave that street. Jos. Rapp and 1200 or more property owners in the northwestern part of the city asked council to give the Ohio Electric a franchise to operate a street car line in Hoover street from Fourth to Tenth on Tenth street to Granville and on Granville to the corporation line. Mary A. Billiards and 19 property owners in Eighth street protested against the paving of that street from Locust to Church street until a sanitary sewer is constructed. Francis F. Funk and three property owners in Eastern avenue and Webb street asked for a sewer in Webb street. KOHLER IS DISMISSED FROM FORCE

"Golden Rule" Chief Says
He Will Take His
Medicine

LONG IN CITY SERVICE

Having Been Appointed by
the Late Tom Johnson
—Found Guilty of
Gross Immor-
ality.

Cleveland, O., March 18.—Fred Kohler, chief of police, was found guilty of gross immorality, conduct unbecoming an officer and a gentleman and conduct subversive to the good order and discipline of the police department, by the civil service commission late yesterday afternoon. The commission dismissed him from his office.

In passing sentence, the commissioners said that, had they power to do so, they would add a permit for the discharged official to receive the full pension of a chief of police.

Kohler last night packed up his personal belongings at police headquarters and left for all time the station, where for ten years he has been in supreme command. He made no comment on the verdict.

"There will be no appeal from the decision," said W. H. Boyd, Kohler's attorney.

Mayor Baker announced last night Inspector W. S. Rowe would continue in temporary charge of the police force.

The mayor will appoint a permanent head almost immediately. Rowe and Captains Schmunk and Shattuck were the men most frequently mentioned last night as probable of selection.

Kohler will retire on half pension, \$62.50 a month. In view of the recommendation of the civil service commission and considerable public sentiment for a full pension, some movement in this direction may be attempted.

Under the statute and the rules of the trustees of the pension fund, lawyers said last night, there is no way in which Kohler legally can draw full pension, which would be \$125 a month.

Mrs. Kohler was notified of the outcome of the trial at her home last night. She declined to discuss a rumor current down town that she would sue for a divorce.

Chief of Police Kohler, who gained countrywide fame because of his "Golden Rule" and other police policies, stated today that he would not appeal his case.

"I can take my medicine without squawking," was the comment of the "best chief" when the verdict was made known to him.

Kohler has been chief of police of Cleveland for ten years and has been on the force for twenty four years. He was made chief by the late Tom L. Johnson, four times mayor of Cleveland, of whom he was a great personal friend.

The charges upon which Kohler was dismissed were presented at a trial before the civil service commission which lasted six days. Briefly they were based on the allegations that Kohler had been found alone one night last June with the wife of Samuel D. Schearer, by her husband, in their home. In reading the verdict, the commission warmly praised the chief's work as police head of the department, as did Mayor Baker in a statement given out today.

Are You Subject to Constipation

Here is a Simple Way of Correcting It Instantly Before It Becomes Chronic.

Very few people go through life without some time or other being troubled with constipation. Thousands injure themselves by the use of strong cathartics, salt mixtures, pills and similar things. They have temporary relief, but the effect is lost, and the more one takes of the less effective they become.

A physic or purgative is seldom necessary, and much better and more permanent results can be obtained by using a scientific remedy like Dr. Caldwell's Syrup Pepsin. It does not have a high sounding name, but what it is represented to be, a mild laxative medicine. It is so mild that thousands of mothers give it to their infants, and yet it is so powerful and contains such definite ingredients that it will have equally good effect when used by a person suffering from the worst chronic constipation. In fact, among the greatest endorsers of Syrup Pepsin are elderly people who have benefited for years and found nothing to better them until they took Syrup Pepsin.

It is a fact that millions of families have Syrup Pepsin constantly in the house, homes like those of Mrs. G. B. Pruitt, Berea, Ky., who used Dr. Caldwell's Syrup Pepsin as a laxative tonic. Mrs. Pruitt writes that it so strengthened and cleansed her system that she was quickly relieved of a severe cough which had troubled her for months. The special value of this grand laxative tonic is that it is suited to the needs of every member of the family. It is pleasant-tasting, mild and non-gripping. Unlike harsh physics it works gradually and in a very brief time the stomach and bowel muscles are trained to do their work naturally again, when all medicines can be dispensed with.

You can obtain a bottle at any drug store for fifty cents or one dollar. The latter size is usually bought by families who already know its value. Results are always guaranteed or money will be refunded.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

was in his engine at Sonora, on the C. O. division, and was struck on the back and head by a swinging mail crane and rendered unconscious. He was taken to Zanesville and afterward brought to his home in Newark, but did not improve, and the injury was then diagnosed as one requiring surgical attention. The following March he was sent to the Johns Hopkins Hospital in Baltimore, and a severe operation was performed, from which he had never recovered.

The deceased was born in Marietta, Nov. 26, 1855, and attending Marietta College was graduated from that institution as a civil engineer in 1875. In this calling Mr. Stratton did not long continue and began his career as a locomotive engineer, working for some time on roads in the West, coming to Newark with the B. & O. about 10 years ago.

The deceased was married Dec. 9, 1886, to Miss Saline Protzman of Marietta, and to them was born one son, Ward, who died in youth about 13 years ago.

Mr. Stratton was a man of education and refinement, having also those qualities that made him a most entertaining and congenial companion. He was an ideal husband and a man whose friendship it was a distinct pleasure to cultivate. He was a member of the local lodge, Brotherhood of Locomotive Engineers, and recognized by election to office of honor in the order, as well as being known as an intelligent, skillful man in handling an engine.

The funeral will take place from the home at 2:30 o'clock Wednesday afternoon. Rev. L. C. Sparks of the First M. E. church conducting the services. Interment in Cedar Hill cemetery.

MRS. MARY NAGLE.
Mrs. Mary Nagle, aged 48 years, wife of Jeremiah Nagle, died Monday evening at 8:30 o'clock at her home 120 South Third street, after a short illness of heart trouble. The deceased was born February 29, 1864, being a native of this state. She was the daughter of John Haines. Besides her husband, she is survived by two daughters, Leona and Mary.

Funeral services will be held Wednesday afternoon at 1 o'clock at the home, Rev. Mr. Hall officiating. Interment at Cedar Hill cemetery.

CASTRO FACES A TRIPLE ALLIANCE

Venezuela, Colombia and Nicaragua Against Him.

WON'T LET HIM LAND THERE

Fear That if He Once Got into the Mountains He Might Cause Much Trouble—Still a Hero Among the Indians of the Andes—General With-out an Army.

New York.—A triple alliance of South American governments, each of which has pledged its entire naval force to keep Cipriano Castro out of Venezuela, has been formed, according to South American agents stationed here. The governments are said to be Venezuela, Colombia and Nicaragua, each of which in its turn has frequently felt the disturbing hand of revolutionists and is said at present to want peace much more than any visit from Castro and an army such as it might be possible for him to recruit.

Francisco Escobar, consul general of Colombia, told about the plans being

made by his government to keep Castro away from the neighboring state of Venezuela.

"We have three naval vessels out on patrol," said Mr. Escobar, "to see that Colombia's coast is not invaded by a Castro force. They are the cruiser Cartagena, which has been recently overhauled and prepared for a war, and the gunboat Pinson and a companion vessel whose name I cannot recall."

"Not only are these preparations being made at sea, but on land our government is equally determined to afford no refuge for Castro and his plotters. Every preparation has been made to seize him immediately upon landing should he slip past the naval guards. Should Castro elude both the naval vessels and the coast guards and escape into the mountains he would become a formidable problem, for our neighboring state is not for ourselves."

The plan of the Castro forces, according to a version of the story concerning his revolutionary designs, is to land his men at the town of Santa Marta, in Colombia, or some spot within marching distance of that town and assemble there to recruit men from the Andes.

Castro was born in the Andes, and it is generally reported that he is still a great hero among the Indians of the mountains and the men of mixed blood who live among Indians and share their prestige as fighters.

The town of Santa Marta is only a few miles from the Venezuelan border, and the foothills of the Andean range lie behind it. Castro's army, it is held, could easily retreat into the Andes if pursued and could there draw to the revolution's standard all of the impetuous mountaineers who are only half civilized and have no comprehension of any method of changing presents other than an open revolution.

A rumor to the effect that Castro was planning to appeal to the Nicaraguans for support under the title of honorary commander of the Nicaraguan army, which was bestowed upon him while Zelaya was president, was called to the attention of Humberto Pasos, consul general of Nicaragua.

"Castro is a general without any army," said Mr. Pasos, "and we are not likely to give him any." Mr. Pasos said that his country was acting like Colombia to keep Castro out of the country and prevent his stirring up trouble on South American soil. Officials of Colombia and Nicaragua, it is understood, will attempt to keep General Hernandez, former minister from Venezuela out of their territory for fear that once established near Venezuela he will join any movement inaugurated by Castro for the overthrow of the government. General Hernandez has said, however, that he would never make an alliance with Castro although they were both opposed to the present Venezuelan government.

100,000 BLOSSOMS NOW BLOOMING AT HALBROOKS'

Hundreds of Newark people took advantage of the invitation of the florist, to visit his greenhouses in Cedar street, opposite Cedar Hill cemetery, Sunday, 1-10 to 1-15, to see the more will continue to visit this "Paradise of Newark" this week. The exhibition furnished by Mr. Halbros proved a rare treat for most of the people who went through the nine large greenhouses. It is indeed a tropical garden set down in the midst of snow and ice. Beautiful plants and flowers were banked on all sides and the sight of thousands of these plants growing was a source of wonder to many.

The occasion is the annual spring showing of flowers and the florist set the date of the opening in Holy Week, as that is one of the periods in the year when the thoughts of many turn toward flowers for Easter time.

A special feature of St. Patrick's Day flowers was made for the opening day of the show, as the Monday following was the day set aside by all good Irishmen to honor the patron saint of Ireland.

A counter in the greenhouse office was liberally banked with real Irish shamrocks, brought direct from the "Old Sod" to the Newark greenhouse. Hundreds of little pots with a liberal growth of the tiny three-leaved plant bordered the table. The parent plant of this shamrock grows in the Downpatrick cemetery in Ireland.

Contained in vases behind this border of green, were hundreds of green roses, carnations, tulips and other varieties. The florist is able to color green or white flower by treating the roots or stems with certain chemicals.

Mr. Halbros stated that he shipped hundreds of the pots of shamrocks to various parts of the country, there being a great demand for this interesting novelty.

Through a series of houses, the visitors were conducted by attendants and wherever possible explanations were made and information relative to the nature or habits of certain plants was volunteered.

Great beds of potted geraniums, being grown for spring bedding purposes, occupied the first house. In this also were vast quantities of potted tulips in full bloom. Another interesting feature was the "flats" or crates of tulips, containing 300 bulbs, many of them in bloom, ready to be potted or to furnish cut flowers as the demand arose.

The Easter lilies, probably the most desirable as well as the most expensive Easter flower, were beautiful. In the basement of the florist's home stood fifty or seventy-five of these beautiful flowers, ready for sale or shipment.

Other flowers in profusion included sweet peas, daffodils, narcissus, carnations, roses, besides hundreds of potted plants, including cyclamen, hyacinths, jonquills, cineraria, primroses and swan-onia delighted the visitors.

The sweet pea trellis and the pansy beds drew exclamations of surprise and delight, especially from the ladies. Few of the pansies were much smaller than the palm of the ordinary hand and the blossoms were found in every imaginable combination.

One of the most attractive flowers in the various houses was the cyclamen, a plant with rich foliage and a striking and pronounced color. This plant was exhibited in ten or more different colors.

It was no exaggeration to assert that fully 100,000 blossoms in many varieties were on exhibition. Many of the "flats" of bulb flowers contained 1-100 to 1-500 blossoms, besides hundreds of buds.

Mr. Halbros has been in Newark a little less than a year, but he is loud in his praise of the town. He has found in Newark a splendid market for cut flowers and potted plants and has little trouble disposing of his products. What is not purchased for local use, he finds a ready sale for in foreign markets. Besides the thousands of pots of shamrocks shipped out several weeks ago, he made one shipment of bulb flowers amounting to two express wagon loads.

There is also a great demand in the foreign markets for cut flowers and at any time that the houses furnish more cut flowers than the Newark market demands, they are shipped to Columbus or elsewhere.

The flower show continues all week. Fresh blossoms are unfolding their petals every day and there is always a splendid display to be seen. Mr. Halbros extends an invitation to the general public to visit and go through the extensive houses and see the flowers now being shown.

RHEUMA DRIVES OUT RHEUMATISM

After 25 Years of Misery, This Man Walks, Works and Feels Fine Again.

Right away—the first day you start to take RHEUMA—the Uric Acid poison begins to dissolve and leave the sore joints and muscles. Its action is little less than magical. RHEUMA works so speedily you actually can feel the Rheumatism leaving the body. A bottle costs but 50 cents and if you are not satisfied Evans' Read Store will return your money. Drug Store:

"I wish to state to you the facts and nothing but the facts. I bless the day a friend brought me a 50-cent bottle of RHEUMA. I used one-half of it and it did me more good than all the other medicines I ever tried. I had been afflicted with Rheumatism all over my body for more than 25 years; I could not walk, and was a broken down man. During that time I spent a small fortune trying to be rid of the horrible disease, but without help. However, RHEUMA reached my case, and I thank God I can again use my feet and do my work."

"Before taking your medicine I was staying with a daughter on her farm, and despite her loving efforts to tempt my appetite I could not eat. After I had taken RHEUMA two days my appetite returned. Yours for prosperity!"—Prof. H. H. Kolling, 7 S. Ninth St., Richmond, Ind., Oct. 10, 1912.

OBITUARY

GEORGE B. STRATTON.
George Burgess Stratton, a well known Baltimore & Ohio locomotive engineer, died at about 5 o'clock Monday afternoon at his home, 101 West Church street, the immediate cause of his death being uraemia, although he had been in poor health for several years due to an accident sustained by him while out on the road. On March 1 he entered the City Hospital and remained for several days, after which he was removed to his home, and although very ill, he seemed, if anything, improved on Monday, and in the morning was able to get out of bed. The attack that resulted in his death was severe and sudden.

On Oct. 17, 1908, Mr. Stratton

Globe-Trotting at Home

YOU know I have been perfectly crazy to go around the world," said Phoebe, as she breezed into the studio. "But I have just found out how to go around the world at home."

"Movies," suggested one.
"No, though they help. But I dropped into a little tailor shop where I have my suit pressed, and I stumbled on to a wildly demonstrative scene. The woman's husband has been to the war in the Balkans. They are Bulgarians. It seems, though I never knew it before, and he had just got back. And such kissing and exclamations and wild gestures you never saw nor heard. Of course, I was tremendously interested, and he told me all about it. I have been fighting the Turk, and clambering down mountain passes, and besieging Adrianople, and doing all sorts of wonderfully adventurous things, all to the tune of the most outlandish language and the wildest gestures you ever could conceive. I don't wonder the allies were victorious, if they talked and flung their arms around as that man did. I don't blame the Turks for running."

"Then as I came down here," went on Phoebe, "I passed an Italian's fruit stand. The woman was attending to it, and a little fat, rollicking baby was rolling around on the street. I stopped to buy some apples—here they are, have some—just to hear her talk. I said it was a lovely spring day, and that I didn't believe Italy could beat this. And then I had Italy pictured to me, its mountains, and olive trees, and blue seas, and soft airs. She was terribly homesick, poor woman, but her 'man' won't go back. He is making too much money here."

"Tomorrow, I think I'll invade the Chinese quarter, and learn about the Flowery Kingdom; and I'm going to draw out Pat who does our gardening, and hear about the wonders of the Emerald Isle. Why, the whole world is right here at our door! And when you see it through the eyes of its inhabitants, and hear about it straight from their hearts, you are getting a light on it quite different from what you would have, if you just looked at it with your own eyes from a sight-seeing bus, or a car window."

"Let's arrange globe-trotting parties for seeing the world in back alleys," suggested one of the girls.

"Well, there really is more of the world right about us, than many of us realize," concluded Phoebe.

"The Kayser" SILK Glove

will give more "real" service and satisfaction than the "ordinary kind"—and "cost no more"—than the glove represented as "just as good."

"KAYSER" Silk Gloves are not the outcome of "claims" or "arguments," but solely the result of a lifetime of striving for the attainment of an ideal, the achievement of which has not been hampered by the restrictions of cost or time.

The guarantee you receive with gloves, sold without the maker's name, rarely ever goes back any further than the clerk who sold the goods.

Every pair of "KAYSER" Silk Gloves contains a guarantee ticket—both the glove and the ticket bear the name "KAYSER." Look for it—it is assurance of quality, fit and value and is there for your protection.

Wilson, Henry Athey, Felix Robertson, Capt. Thomas Smith, G. I. Wright, Jones Melick, Aaron Stevenson, S. A. Medara, Jacob Kellenberger, E. S. Brownfield, and R. C. Bigbee. The average age of this outfit was 70-76 years. The comrades all gathered at the Memorial Hall and enjoyed an oyster supper at the expense of their victim, and then leaving him at the hall quietly stole away, and on arrival at his home called by telephone and informed him that his presence there was needed at once, and on his arrival he opened the door and there sat the bunch that he had just finished entertaining at another place.

The evening was pleasantly spent. Miss Catt of the home and her two young lady chums, rendered several fine selections of music, which was enjoyed by those present. Then the chorister of the Old Guard broke loose, and he rained perfect torrents of music on those present, and it was perfect in execution. It was the opinion of all present that they had not heard so much discord in music in all their lives, therefore they voted the official chorister a medal for perfection, each one saying that no human could have done worse than he did, therefore it was perfection. At the same old "late hour" and after a delicious lunch had been served by the hostess and her young lady helpers, the comrades took their leave having spent most delightful evening.

Best Known Cough Remedy.
For forty-three years Dr. King's New Discovery has been known throughout the world as the most reliable cough remedy. Over three million bottles were used last year. Isn't this proof? It will rid you of your cough, or we will refund your money. J. J. Owens of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs and cold that I have ever used." For coughs and colds and all throat and lung troubles, it has no equal. 50c and \$1.00 at F. D. Hall's.

ADVOCATE NOVELLETTE

THE LOST MILLIONS.
Pursing her lips, she shut her purse. She had come without fare, and she told the conductor as much. The conductor looked at her blankly. He didn't like to throw her off.

She had on a nice white linen suit and it might get soiled. "I'll telephone to headquarters and find out what to do about it," he told her. "Stop the car. Or,

wait a minute, I'll stop it." He stopped the car, and, in spite of the earnest protests of the rest of the passengers, went in search of a telephone. Some of the passengers were in a great hurry. Three brokers were aboard and millions depended on whether they reached the stock exchange in time to sell at 5543 some Consolidated Peanut they had bought the day before at 24. They pleaded, begged and swore, but the conductor was firm. He left the car.

He was gone 15 minutes. When he returned 14 cars and a milk wagon were blocked behind his car and the brokers were foaming at the mouth, where brokers are said always to foam when their foam. Millions had been lost, including the company's nickels.

"The president says to let you ride," the conductor told her.

Daddy's Bedtime Story

An Easter Story
Of a Lily
And a Rose

The Queen Looked at the Beggar.

A STORY of Easter, so daddy said, should always tell about the birds and flowers.

"What flower do you think is the Easter flower?" he asked Jack and Evelyn.

"Why, it's the lily," they chorused. "Everybody knows that." "Ah, do they?" daddy smiled. "Very well, then, suppose I tell you a story. Once on a time, so my story tells, the best and most beautiful queen in all the world had a lovely garden of flowers.

"The Rose was the queen of them all and very proud she was of her rank and beauty.

"Far away from the lovely park and palace garden stretched a great black marsh. Only the snakes and the wild birds lived among its tangle of wild grasses.

"The Rose shuddered whenever she looked out at the marsh, it was so ugly and lonely.

"But one morning as she looked out toward the marsh she saw a tall, slender stem rising out of the black earth, and on its tip were some long buds.

"From hour to hour she watched this new plant. It was so different from any other she had ever seen.

"And one day she saw the buds open and the flower unroll. It was pure white with what looked like a drop of gold in its heart. But the Rose was jealous and would not ask the beautiful flower to come and share the palace garden with her.

"And as she looked the queen came out into the garden. She, too, saw the lovely white flower in the marsh.

"Go bring it to me," she said to her page. But just as the page reached the flower a beggar child saw and picked the white flower.

"And the page brought the beggar child to the queen. The queen looked long at the thin, little beggar in his rags and dirt.

"Poor little waif!" said the good queen, with a tear in her eye. "Even as this lily sprang from the slime and dirt, so from such as thou may grow the good and great." And the queen sent him away to be fed and clothed and cared for at her cost.

"And she turned to her gardener. Henceforth the lily shall be my flower. Plant it close by the palace door that I may never forget the lesson it teaches."

"And when the Rose heard that it bowed its head with shame and blushed a deep, dark red."

Senators Will Scrutinize the House Bill.

REALIZE RESPONSIBILITY

Big Fight Is Brewing in Senate Over Creation of State Budget as Provided in Lloyd Bill—House Members of Committee That Probed National Guard Expenditures Favor Reduction in Membership From 6,000 to 4,500.

Columbus, O., March 18.—(Special.)—There may be a big reduction made in the amount of money carried in the general appropriation bill which was prepared by the house finance committee, of which Representative John Cowan of Putnam county is the chairman. Early in the session the suggestion was made that the senate and house finance committees hold joint sessions to consider the requests of state officials for money, but Representative Cowan withheld his assent, on the ground that he considered the proposal as an invasion of the prerogatives of the house committee. So the members of that body conducted their own investigations. But now Chairman Daniel F. Mooney of the senate finance committee says he and his colleagues have the same responsibility that is upon the house finance committee, and he proposes to dissect the appropriation measure when it reaches the upper house, and to make such reductions or additions as he thinks are justified. Some of the departments that were granted increases may have cause to regret the action of Chairman Mooney and his colleagues.

The opposition to the bill by Representative W. D. Fulton of Licking county, for the redistricting of the state has resulted in a decision being

REPRESENTATIVE ETLINGS.
Wants State to Inspect Institutions Handling Public Funds.

made by state administration leaders not to press it for passage. Instead the measure will be abandoned, and in its stead will be brought forward a measure eliminating the district-at-large, and giving Cuyahoga county another district. The lines between the First and Second congressional districts in Hamilton county also are to be straightened out. This is the second consecutive legislative session that plans for redistricting the state had to be abandoned. The opposition of congressmen to all measures proposed is the cause. Two years ago the congressmen petitioned former Governor Harmon to call a special session of the general assembly for the purpose of redistricting the state, but in the light of developments this year that executive acted wisely in declining.

If Secretary of State William Jennings Bryan appoints Senator Daniel F. Mooney of Auslaize county to an ambassadorship or to one of the consular offices, he will do something that will please the members of the general assembly, especially those sitting in the upper house. Educated, refined, suave, of pleasing personality, diplomatic to an extent that he never plays on one's raw strings, members of the general assembly feel confident that the St. Marys solon would fit ideally into a foreign post. Coupled with the qualifications above set forth is his experience as a lawyer. Senator Mooney is one of the general assembly's authorities on all legal questions, and his advice and counsel is sought by all members on matters of importance. The senate recently petitioned Secretary Bryan to give Senator Mooney a post.

A fight is brewing in the senate over the provisions of the Lloyd bill for the creation of a state budget. As introduced the measure provided that the heads of the different departments should prepare estimates of the money needed by them to the governor, who would go over the requests, study all carefully, consider them all in relation to each other and the condition

of the state's finances, and then make recommendations to the general assembly for each department. It is a plan that is pursued in all well regulated business enterprises, and the inauguration of it in the state government would mean a great reform in the way appropriations are made. But, as usual, some few departmental heads do not want to be regulated. They want no check placed upon their ability to handle and expend the people's money. As it is now, each head prepares his own estimates and then submits it to the general assembly, which usually grants the request. A few state officers look with disfavor upon the attempt, through the budget commission, to curb the powers now possessed. Several state officers want to be placed on this budget commission with the governor. If that were done it would simply be placing departmental heads in a position where they would pass upon their own estimates, to the detriment of other departments, possibly, not so represented.

A fight is brewing between the members of the legislative committee which probed the expenditures of the Ohio national guard. The radical members of the committee from the house want a report submitted that will recommend a reduction in the guard from 6,000 to 4,500. This organization, the senators assert, has proven in times past to be a necessary aid to the preservation of the government, and they do not want to see it made inefficient. The house members also want to abolish the naval branch of the guard, but the senators have not formulated their plan of action on that recommendation. The appropriations for the guard were materially cut, but it is asserted the amount obtained by the guard two years ago was much larger than ordinarily, because of the Columbus street railway strike.

Instead of shaping things so that an early adjournment can be taken it appears that in the house the members are working feverishly to prolong the session. Just at the time when administration leaders were talking adjournment, the house committee recommended 60 bills for places on the calendar, thus making it an enormous affair. Just to add to the jam, there were 22 new bills introduced. The only thing that can be done is to make special orders of the important measures and then adjourn after taking care of all such bills, leaving the others to die.

Representative John F. Kramer of Richland county, a former superintendent of schools, former Sunday school superintendent and now Sunday school teacher, is the author of a measure to stop Sunday performances by moving picture theaters. Having come into existence since the enactment of the law placing a ban on Sunday theatricals, the courts have held the "movies" are not included in the theater class, and it has been impossible to close them up on the day reserved for religious worship. Singularly, the movies have the strong support of the farmers, but it is doubtful whether they will oppose the Kramer bill.

State Auditor A. V. Donahey is working hard to make the state bureau of supervision and inspection of public offices a real accounting department. He is now seeking to get a clause in the bill by Representative Alton H. Etlings of Wayne county providing for the reorganization of the bureau that will enable him to inspect the accounts of all public and private institutions that receive public money. The purpose of the change is to bring under the jurisdiction of the bureau law library associations which receive fines from police courts under the law; public libraries for which contribution is made by any taxing district; county fair associations to which counties contribute large sums; private hospitals that receive government aid; humane societies, and other similar organizations. The clause is aimed particularly at county fair associations. The auditor's office is filled with complaints about the handling of the finances of these organizations, and Mr. Donahey asserts he should have a chance to look at the books.

The senate members made the University of Cincinnati an exception to the strict levy limitations of the Smith 1 per cent tax rate law when they passed the bill introduced by Senator T. E. Gregory of Cincinnati, authorizing the council of that city to make a levy of five-tenths of 1 mill beyond the 10 mills limitation without the consent of the people. The bill passed is intended to affect Cincinnati only, but it is general in its purposes and may be used in any municipality maintaining a university. The proceeds of the tax will be used to defray expenses of the university maintained in the Queen City, it being the intention of the trustees to take up vocational training on an extensive scale.

Harry E. Vollmer, representative from Cuyahoga county, has probably taken the most advanced step of all taken by his colleagues. He has offered a bill to create courts of conciliation in each county of the commonwealth, which bodies shall have jurisdiction over disputes involving amounts up to \$1,000. Such a system has been in operation in England for some time, and the Vollmer bill is patterned after it. Should either of the parties to a dispute decline an invitation to enter the conciliation court and then afterward should carry the matter to common pleas court, then the party refusing would have to pay the costs thereof.

WILSON GAINS MANY FRIENDS

Tries Not to Offend, but Sticks to His Rules.

HIS POLICY BRINGS ESTEEM

New President Restricts Time to Be Taken by Personal Friends and Gives Complete Attention to His Work—Asserts He Has Much to Learn and Must Keep at Top Speed.

By ARTHUR W. DUNN.

Washington, March 18.—(Special.)—Two weeks of Wilson have made a great difference in the esteem in which he is held. The new president has improved on acquaintance. He has had no disposition to offend any person nor to do anything that is not in keeping with what he believes to be for the best interest of the government. He does believe that he should conscientiously give all his time to the work and that he should not deviate from this rule save in exceptional cases and, of course, in order to take the necessary exercise for his health.

"I am trying to learn what I am to do," he told some visitors a few days since. "I am new here and must learn a great deal. There is much to do, many demands upon my time, and I know that it may seem ungracious that I cannot give more attention to true and loyal friends, but I must first of all attend to the duties which the great office imposes upon me."

And those who want to get to him in order to present claims for office must go to the cabinet officers and give the president more time.

"Original Wilson Men."

It was a rather curious idea put forth by certain politicians that only "original Wilson men" should be considered in the giving out of appointments. If that idea had been proclaimed before election it would have made a great difference in the Wilson vote. Suppose only "original Wilson men" had stood by at the polls. Where would the Democrats have been? Wilson and his supporters quickly decided not to recognize factions in making appointments.

Keeps His Own Counsel.

I have often said that William J. Bryan was a very secretive person. In all the years he has been in politics no man has had authority to say what he will do or to speak for him. Hundreds—yes, several hundreds—visited him in 1908 before the Denver convention, and to none did he tell anything. He did not tell them what he was going to put in the platform; he did not give them a hint as to his choice for vice president. He tells people things only when he gets ready.

When he became secretary of state a lot of newspaper men rushed up with the idea that Bryan's good fellowship meant turning the state department wide open and giving all the foreign secrets publicity. But what a revelation! Bryan was found to be the most secretive secretary that has held the place in the memory of the oldest inhabitant of Newspaper row. He kept them waiting for hours, and when he did see them he told them he would say nothing until action was completed. And that was no good for the newspaper men, who want to discuss foreign complications as they develop.

Crane Won Garrett.

Senator Crane of Massachusetts and Congressman Garrett of Tennessee served together on the inauguration committee. "I got an entirely different impression of Crane after knowing him," said Garrett. "He is affable, intelligent and a most likable man. He is different from what I had first imagined." A great many people who did not know Crane had an idea that he was nothing but a bad old millionaire.

"Coming Back."

Belated "swan songs" of men who were defeated last fall for congress announce that they are "coming back" next year. It looks as if quite a number of them would make good on these boasts, for they were defeated by narrow margins in an exceptional year.

Where Weeks Lost.

When a man who is in congress has served in the army or navy or is a graduate of one of the service academies it is generally customary to give him a place on the committee which deals with the services from which he came. Senator Weeks of Massachusetts has not been fortunate enough to land a committee on that basis.

He is a graduate of the Naval academy, but when he entered the house he found Ernest Rogers a member of naval affairs from Massachusetts, and he could not have the place. Now he finds Senator Lodge on naval affairs in the senate and fails to get the place. Weeks is probably the only graduate of the Naval academy who has been in the senate in a quarter of a century.

First Time in Four Years.

Tales of the evil swiftness of Frank Hitchcock as postmaster general are now retold, especially since the affable Burleson sees every body who comes along. "Albert," said a Republican member of the house, "I am mighty glad to see you here. By George, it is good to get into this room! I haven't been inside in four years, and you are the first postmaster general I have seen. I could never get this far before."

BOUGHT HIDE, HOLDS COW.

Also the Calf That Came Afterward. New Suit Is Threatened.

Dow, Ill.—A countryside version here of the "Merchant of Venice," with a cow in the role of Antonio, still lacks a Portia to settle the controversy.

Philip Wiegand, a farmer, found his cow was ill and was afraid she would die. Hoping to avoid a total loss, he sold the animal's hide to James Hawkins, a neighbor and friend, for \$7.50. Hawkins was to take the animal to his farm and kill it, and Wiegand was to have the carcass to feed to his hogs. But the cow began to get better in her new home, so that Hawkins was convinced she would not die, after all. He doctor the animal, with the result that she recovered, and a few days ago she gave birth to a calf.

Wiegand immediately appeared and demanded that the cow with her calf be returned to him.

"I sold you only her hide," he said to his neighbor. "All the rest belongs to me."

"I bought the skin, and all that's inside it goes to me," retorted Hawkins. Hawkins refused to surrender the cow and calf, which, he says, he is holding as security for his investment in the cow's skin. Each has threatened to sue the other in the courts.

ISLAND SEEKS ANNEXATION.

American Inhabitants of Isle of Pines Will Petition Wilson.

Pittsburgh.—Announcement had been made by Thomas J. Keenan of this city, president of the American Association of the Isle of Pines, that a petition directed to President Wilson and the senate, requesting annexation of the island, would be put in circulation in this country and the Isle of Pines.

The petition states that 6,000 Americans who reside or have property in this Isle of Pines wish to have action taken to make the island a permanent possession of the United States. The Isle of Pines, the petition says, has become a distinctively American colony, citizens of the United States owning more than 95 per cent of the land and making up a majority of the population.

INVENTS FOLDING WING AEROPLANE

Englishman to Build New Type in This Country.

New York.—Garnet Holmes, an electrical engineer of London, who is visiting this country, announces that he has completed and flown successfully a new type of aeroplane, which meets the problem of variable surface as the swallow meets it, and that he is in America to build an ocean flying machine of the same design. The location for its erection is Racine, Wis.

As Mr. Holmes explains his device, it is a monoplane with wings pivoted like the blades of a pair of scissors, flying with pivot and foremost. In full flight the wings close backward, like the swallow's, decreasing resistance. The folding is accomplished by the force of air resistance. In rising and alighting at slow speed, when more sustaining surface is needed, the wings are fully extended by a clutch worked by the motor.

The power plant is an engine built by Mr. Holmes, which, he says, develops forty horsepower, or one horsepower per pound of weight—a single cylinder, double acting gasoline motor. The experimental machine, he says, carried one person only, but the latest model is to carry aviator and two passengers and to be equipped with floats. He is confident that it will achieve a speed of more than 100 miles an hour, equaling that of the lightest and swiftest existing racing monoplanes with rigid wings, which carry no passengers. With the completion of this machine Mr. Holmes believes transatlantic flight more than possible.

OFF ON LONG HIKE.

Man Sixty-four Years Old to Cover Four Thousand Miles.

Washington, Pa.—Charles Studebaker of this town, sixty-four years old, started on a 4,000 mile journey on foot and pushing before him a cart bearing 365 pounds of luggage.

Studebaker has taken a trip of this sort before. He took the national turnpike to Cumberland, Md. From there he will proceed to Philadelphia and then over the old York road on to New Jersey and into New York, where he will stay a few days and then push on to Buffalo and around the lakes to South Bend, Ind., and from there to Chicago. He expects to return to Washington about Nov. 1 next. He will be accompanied by an intelligent fox terrier.

Hiding In Oven, Is Burned.

Nashua, Ia.—Lewis Porthum, eight-year-old son of W. H. Porthum, desiring to play at hiding from his mother, who had left the house for a few minutes, backed into the big oven of the kitchen range and sat down. He did not know that his mother had started a fire.

Soon, however, he felt the heat. Then he tried to get out. His arms were in a position that held him fast. The oven was growing hotter every minute. His mother came in response to his cries and rescued him.

THE SOUVENIR PROGRAMS FOR ELK MINSTREL

The Elk Minstrel souvenir programs are being distributed to the advertisers today by the program committee. Messrs. H. H. Shuck, Smith Redmond and C. C. Butler. The printing of the programs required 185 pounds of feather edge cover paper and twelve reams of creamed paper weighing 1200 pounds. It can thus be seen that the arranging of the program was no easy work. There are thirty-two pages besides the cover all filled with neat and attractive ads. The committee having the matter in charge is receiving many compliments for the splendid manner in which they have handled their work.

BOY BADLY SCALDED BY HOT COFFEE

Rolla Whiteman, the little son of Mr. and Mrs. W. H. Whiteman, who reside a short distance east of the city, is suffering great pain as a result of being scalded early this morning.

The child was playing about the kitchen shortly after breakfast and during the momentary inattention of his parents he reached up to the stove and pulled over the coffee pot. The scalding hot liquid deluged him. The coffee soaked garments were removed at once and Dr. B. F. Barnes was sent for. An examination showed that the little body had been badly scalded from the hip to the ankle, but it is not thought the injury will result seriously. He is resting easier at the present time.

THIS IS AN HONEST ADVERTISEMENT

It Tells a Little Story About a Prescription That Really Cures Indigestion.

A man of long experience in the advertising business said to the writer on November 22, 1912:

"I can't for the life of me see how your Company can make any money on MI-O-NA Stomach Tablets. They are too good. They cure too quickly. You can't sell enough to any one person."

Continuing, he said—"My wife was cured of severe stomach trouble two years ago by taking only one-half box and has never been bothered a particle since until about two weeks ago when she had another attack."

"Two days treatment with MI-O-NA and she was as well as ever again. MI-O-NA is fine for the people who take it, but as I said before, how can you make any money?"—Name on application.

MI-O-NA Stomach Tablets are compounded from a stomach specialist's prescription. Daily they are banishing terrible stomach agony in the palaces of the rich and in the humble cottages of the poor.

The price, 50 cents, at your druggist for a generous boxful is surely a modest one to pay for certain stomach comfort. Evans' Drug Store guarantees MI-O-NA.

PROGRESS OF THE TREATMENT WILL BE MADE PUBLIC

New York, March 12.—The progress of the 12 persons who received Dr. Friedmann's treatment at Bellevue hospital will be told the public by a daily series of bulletins from the offices of the Board of Health. The first of these bulletins will not be issued for a week, as no change in the condition of any of patients is expected within that time.

The Cynical Bachelor rises to remark that Lot's wife wasn't the only woman who wasn't worth her salt.

Use GOLD DUST instead of soap

You really don't need soap in the house, except for toilet and bath, and possibly a little for your fine laces and lingerie. With Gold Dust—the all round cleanser—you can do all your household cleaning more quickly—easily—economically than you can with soap or any other cleanser.

Gold Dust does the work better, too. Soap only cleans off the surface; Gold Dust goes into every corner cleaning and purifying, driving out the germs as well as the dirt.

Best of all, you don't need any elbow grease with Gold Dust—it does the work itself.

Another Reform Movement

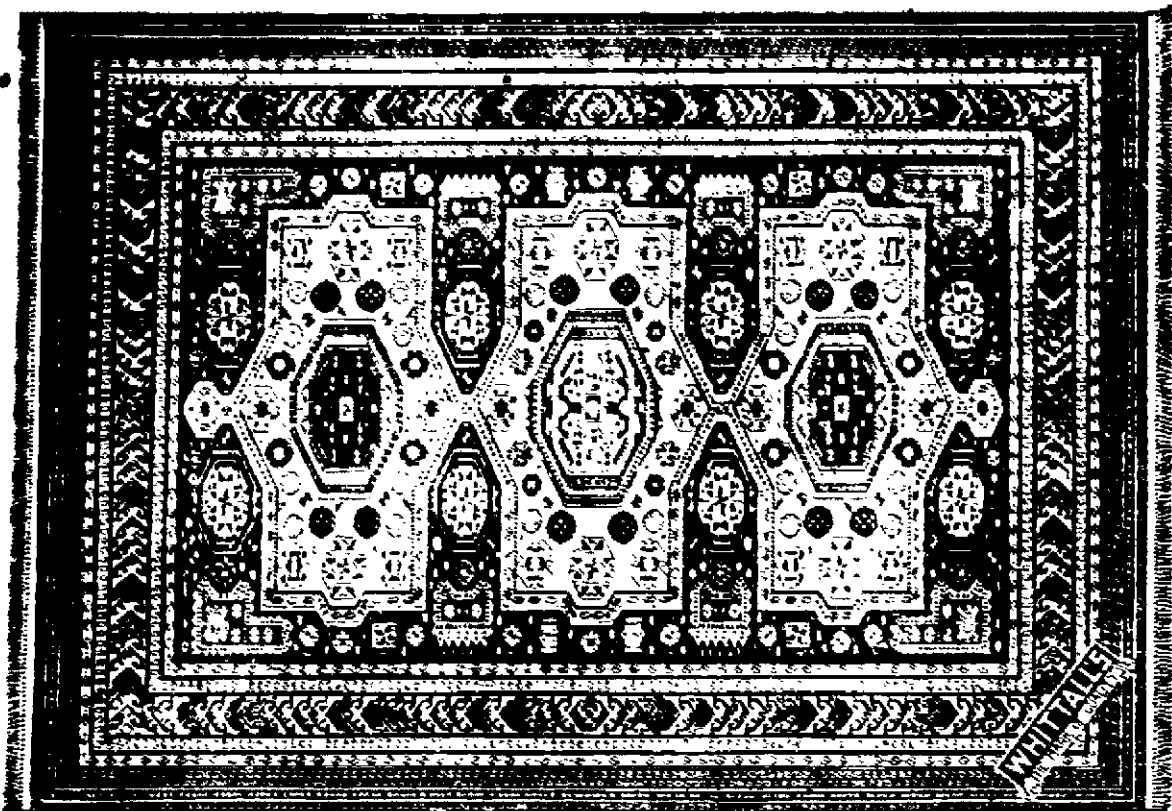

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

PUPILS PLAN EQUIPMENT OF PLAY GROUNDS

High school pupils Tuesday morning at the regular class session discussed tentative plans for creating and maintaining a fund to be used in equipping the Eleventh Street Playground tract purchased a year ago by the school board.

The suggestion presented for the consideration of the pupils were received with great enthusiasm, and when the matter was put to a vote it was unanimously adopted by the student body.

These plans will be placed before the school board tonight for their approval or rejection, but no friction is anticipated from this source.

Since the Eleventh street tract was purchased, pupils in the school have been anxious to formulate a plan whereby the grounds could be equipped for service. If the plans are approved and carried out, baseball diamonds, tennis courts, basketball courts, football gridiron and other athletic grounds will be provided and when school children are using the grounds an efficient director will be in charge.
